

Eli V. Crisan

Publications

1. Crisan, Eli V. June 1964. Isolation and culture of thermophilic fungi. Boyce Thompson Institute 22(6):291-301.
2. Crisan, Eli V., and Elena Mazzucca. 1967. Separation of aflatoxin on selectively deactivated silicic acid. Boyce Thompson Institute 23:361-365.
3. Crisan, Eli V. 1967. Note. A temperature controlled shaker for microbial cultures. Boyce Thompson Institute 23:379-380.
4. Crisan, Eli V., and A.T. Grefig. Dec. 1967. The formation of aflatoxin derivatives. Boyce Thompson Institute 24(1):3-8.
5. Crisan, Eli V. March 1968. A 2,4-dinitrophenylhydrazine spray for the identification of aflatoxin B₁ on thin-layer chromatoplates. Boyce Thompson Institute 24(2):37-38.
6. Crisan, Eli V. 1969. The proteins of thermophilic fungi. p.32-33, IN: J.E. Gunckel (ed.), Current Topics in Plant Science.
7. Crisan, Eli V. 1970. The fish protein concentrate story. 11. A demonstration program in Brazil. Food Technology 24(10):90-96.
8. Crisan, Eli V. March 1971. Mechanism responsible for release of toxin by *Metarrhizium* spores in mosquito larvae. Journal of Invertebrate Pathology 17(2):260-264.
9. Crisan, Eli V. 1971. Modern Food Microbiology by J.M. Jay. BioScience 21(6):297. (book review)
10. Stevenson, Kenneth E., Reese H. Vaughn and Eli V. Crisan. March 1972. NOTES. Fixation of mature spores of *Clostridium botulinum*. Journal of Bacteriology 109(3):1295-1297.
11. Crisan, Eli V., and Martin W. Miller. 1972. Natural fermentation of marine products. p.48-49, IN: S. Price (ed.), University of California: Sea Grant Annual Report, 1971-1972. Sea Grant Publ. 24.
12. Crisan, Eli V. March 1973. Effects of aflatoxin on germination and growth of lettuce. Applied Microbiology 25(3):342-345.
13. Crisan, Eli V. Dec. 1973. Effects of aflatoxin on seedling growth and ultrastructure in plants. Applied Microbiology 12(6):991-1000.
14. Crisan, E.V. 1973. Current concepts of thermophilism and the thermophilic fungi. Mycologia 65:1171-1198.

15. Sands, Ann, and Eli V. Crisan. 1974. Microflora of fermented Korean seafoods. *Journal of Food Science* 39:1002-1005.
16. Sorensen, Steven G., and Eli V. Crisan. 1974. Thermostable lactase from thermophilic fungi. *Journal of Food Science* 39:1184-1187.
17. Crisan, Eli V. 1974. Fish protein concentrate - potential and problems. *Proceedings, UC Davis Meat Processing Conference* 1974:27-31.
18. Crisan, Eli V., and Anne Sands. Jan. 1975. Microflora of four fermented fish sauces. *Applied Microbiology* 29(1):106-108.
19. Tom, Raymond, and Eli V. Crisan. Feb. 1975. Assay for lipolytic and proteolytic activity using marine substrates. *Applied Microbiology* 29(2):205-210.
