

## Mendel Mazelis

### List of Publications

1. Mazelis, Mendel, and P.K. Stumpf. March 1955. Particulate adenylic kinase in higher plants. Federation Proceedings 14(1, pt.1):253 (Abstract 817).
2. Mazelis, Mendel, and P.K. Stumpf. May 1955. Fat metabolism in higher plants. VI. Incorporation of  $P^{32}$  into peanut mitochondrial phospholipids. Plant Physiology 30(3):237-243.
3. Mazelis, Mendel. Jan. 1956. Particulate adenylic kinase in higher plants. Plant Physiology 31(1):37-43.
4. Mazelis, Mendel, and Birgit Vennesland. Aug. 1956. Carbon dioxide fixation into oxalacetate in higher plants. Plant Physiology 31(Suppl.):xxiii.
5. Mazelis, Mendel, and Birgit Vennesland. Nov. 1957. Carbon dioxide fixation into oxalacetate in higher plants. Plant Physiology 32(6):591-600.
6. Mazelis, Mendel. March 1958. Nucleotide-degrading systems in cabbage leaf. Federation Proceedings 17(1):271 (Abstract #1071).
7. Mazelis, Mendel. March 1959. Enzymatic degradation of adenosine triphosphate to adenine by cabbage leaf preparations. Plant Physiology 34(2):153-158.
8. Mazelis, Mendel. Aug. 1959. Decarboxylation of methionine by an enzyme system from cabbage leaf. Biochemical and Biophysical Research Communications 1(2):59-62.
9. Mazelis, Mendel. March 1960. Enzymic formation of carbon dioxide, from the carboxyl group of methionine. Federation Proceedings 19(1, pt.1):4 (Abstract #8).
10. Mazelis, Mendel. May 1960. Formate oxidation by particulate preparations from higher plants. Plant Physiology 35(3):386-391.
11. Schwimmer, S., J.F. Carson, R.U. Makower, M. Mazelis and F.F. Wong. Oct. 1960. Demonstration of aliinase in a protein preparation from onion. Experientia 16(10):449-450.
12. Mazelis, Mendel. Jan. 1961. Non-enzymic decarboxylation of methionine by ferrous ion. Nature 189(4761):305-306.
13. Mazelis, Mendel. May 1961. A light-stimulated production of an oxidant by pyridoxal phosphate,  $Mn^{++}$  and amino acids. Archives of Biochemistry and Biophysics 93(2):306-311.
14. Schwimmer, S., M. Mazelis and J.F. Carson. 1961. Enzymological basis of flavor development in onions. p.73, IN: Abstracts, Institute of Food Technology, 21st Meeting.

15. Mazelis, Mendel. Jan. 1962. The pyridoxal phosphate-dependent oxidative decarboxylation of methionine by peroxidase. I. Characteristics and properties of the reaction. *Journal of Biological Chemistry* 237(1):104-108.
16. Mazelis, Mendel, and Lloyd L. Ingraham. Jan. 1962. The pyridoxal phosphate-dependent oxidative decarboxylation of methionine by peroxidase. II. Identification of 3-methylthiopropionamide as a product of the reaction. *Journal of Biological Chemistry* 237(1):109-112.
17. Mazelis, Mendel. Aug. 1962. Purification and properties of cysteine sulfoxide lyase from broccoli. *Plant Physiology* 37(Suppl.):xlili.
18. Schwimmer, Sigmund, and Mendel Mazelis. Jan. 1963. Characterization of alliinase of *Allium cepa* (onion). *Archives of Biochemistry and Biophysics* 100(1):66-73.
19. Mazelis, Mendel. March 1963. Demonstration and characterization of cysteine sulfoxide lyase in the Cruciferae. *Phytochemistry* 2(1):15-22.
20. Mazelis, M. Sept. 1963. Oxidative decarboxylation of amino acids to amides by peroxidases. *Proteinanalytisches Symposium*, Göttingen.
21. Mazelis, Mendel, and R.K. Creveling. Oct. 1963. An adenosine hydrolase from Brussels sprouts. *Journal of Biological Chemistry* 238(10):3358-3361.
22. Buziassy, Charles, and Mendel Mazelis. 1964. The formation of S-carboxymethyl-L-cysteine by radish (*Raphanus sativus*) seedling homogenates. *Biochimica et Biophysica Acta* 86:185-186.
23. Riddle, V.M., and M. Mazelis. April 1964. A role for peroxidase in biosynthesis of auxin. *Nature* 202(4930):391-392.
24. Mazelis, M., and V.M. Riddle. 1964. The conversion of tryptophan to auxin by plant peroxidases. p.424, IN: Abstract of the 10th International Botanical Congress, Edinburgh.
25. Mazelis, Mendel, Barbara Levin and Naomi Mallinson. Aug. 1964. Enzymic degradation of S-methyl methionine. *Plant Physiology* 39(Suppl.):xxv.
26. Mazelis, Mendel, Barbara Levin and Naomi Mallinson. 1965. Decomposition of methyl methionine sulfonium salts by a bacterial enzyme. *Biochimica et Biophysica Acta* 105:106-114.
27. Riddle, V.M., and Mendel Mazelis. May 1965. Conversion of tryptophan to indoleacetamide and further conversion of indoleacetic acid by plant preparations. *Plant Physiology* 40(3):481-484.
28. Splittstoesser, Walter E., and Mendel Mazelis. Aug. 1965. The metabolism of the methyl carbon of methionine in higher plants. *Plant Physiology* 40(Suppl.):xvi.

29. Mazelis, Mendel, and Moshe Tishel. April 1966. A soluble L-cystine lyase system from cabbage leaves. *Federation Proceedings* 25(2, pt.1):753 (Abstract #3188).
30. Tishel, Moshe, and Mendel Mazelis. Aug. 1966. Enzymatic degradation of L-cystine by cytoplasmic particles from cabbage leaves. *Nature* 211(5050):745-746.
31. Tishel, Moshe, and Mendel Mazelis. Sept. 1966. The accumulation of sugars in potato tubers at low temperature and some associated enzymatic activities. *Phytochemistry* 5(5):895-902.
32. Splittstoesser, W.E., and Mendel Mazelis. Jan. 1967. The metabolism of methionine in higher plants. Catabolism of the methyl group by seedlings of various species. *Phytochemistry* 6(1):39-47.
33. Mazelis, Mendel, Noreen Beimer and R.K. Creveling. May 1967. Cleavage of L-cystine by soluble enzyme preparations from *Brassica* species. *Archives of Biochemistry and Biophysics* 120(2):371-378.
34. Mazelis, Mendel, and Elizabeth S. Liu. Dec. 1967. Serine transhydroxymethylase of cauliflower (*Brassica oleracea* var. *botrytis* L.): Partial purification and properties. *Plant Physiology* 42(12):1763-1768.
35. Mazelis, Mendel, and Laurie Crews. Aug. 1968. Purification of the alliin lyase of garlic, *Allium sativum* L. *Biochemical Journal* 108(5):725-730.
36. Mazelis, M., and L. Fowden. 1968. Proline synthesis by enzymes from germinating peanut cotyledons. p.248, IN: Abstracts, Federation of European Biochemical Societies, Fifth Meeting, Prague.
37. Mazelis, M., and L. Fowden. May 1969. Conversion of ornithine into proline by enzymes from germinating peanut cotyledons. *Phytochemistry* 8(5):801-809.
38. Mazelis, M., and L. Fowden. April 1970. A proline-dependent reduction of NAD<sup>+</sup> by an enzyme from peanut cotyledons. *Federation Proceedings* 29(2):343 (Abstract #5530).
39. Mazelis, Mendel. 1971. Oxidative decarboxylation of amino acids (horseradish peroxidase). p.606-608, IN: Herbert Tabor and Celia White Tabor (eds.), Methods in Enzymology, v.XVII, Part B: Metabolism of Amino Acids and Amines, Academic Press, New York.
40. Fowden, L., and M. Mazelis. Feb. 1971. Biosynthesis of 2-amino-4-methylhex-4-enoic acid in *Aesculus californica*: The precursor role of isoleucine. *Phytochemistry* 10(2):359-365.
41. Mazelis, Mendel, and Leslie Fowden. Feb. 1971. The metabolism of proline in higher plants. II. L-Proline dehydrogenase from cotyledons of germinating peanut (*Arachis hypogaea* L.) seedlings. *Journal of Experimental Biology* 22(70):137-145.

42. Cameron, Erma C., and Mendel Mazelis. Sept. 1971. A nonproteolytic "trypsin-like" enzyme. Purification and properties of arachain. *Plant Physiology* 48(3):278-281.
43. Mazelis, Mendel, and Leslie Fowden. Feb. 1972. O-Acetyl-L-serine lyase: A new  $\beta$ -eliminase in extracts from higher plants. *Phytochemistry* 11(2):619-622.
44. Mazelis, Mendel, and Leslie Fowden. June 1973. Relationship of endogenous substrate to specificity of S-alkyl cysteine lyases of different species. *Phytochemistry* 12(6):1287-1289.
45. Mazelis, Mendel, and Richard K. Creveling. March 1974. L-Proline dehydrogenase of *Triticum vulgare* germ: Purification, properties and cofactor interactions. *Phytochemistry* 13(3):559-565.
46. Oputa, C.O., and M. Mazelis. Aug. 1974. Hypogravity-induced inhibition of CO<sub>2</sub> production from amino acids in higher plants. *Experientia* 30(8):888-889.
47. Lu, Ti-Shen, and Mendel Mazelis. March 1975. L-Ornithine: 2-oxoacid aminotransferase from squash (*Cucurbita pepo*, L.) cotyledons: purification and properties. *Plant Physiology* 55(3):502-506.
48. Mazelis, Mendel. March 1975. The enzymatic cleavage of the C-S bond of substituted cysteines in higher plants. *Phytochemistry* 14(3):857-858.
49. Mazelis, Mendel. June 1975. The cleavage of the ether linkage of O-methyl serine by the alkyl cysteine lyase of *Acacia farnesiana*. *FEBS Letters* 54(2):193-195.
50. Mazelis, Mendel, and Richard K. Creveling. June 1975. Purification and properties of S-alkyl-L-cysteine lyase from seedlings of *Acacia farnesiana* Willd. *Biochemical Journal* 147(3):485-491.
51. Mazelis, Mendel, and Helen M. Pratt. Aug. 1975. Conversion of 5-oxoproline to glutamic acid in higher plants. *Plant Physiology* 56(2, suppl.):7 (Abstract #31).
52. Waber, Jack, Judith Torten and Mendel Mazelis. Aug. 1975. Decrease in activity of glutamic acid decarboxylase in extracts of gravity compensated plants. *Plant Physiology* 56(2, suppl.):49 (Abstract #268).
53. Mazelis, Mendel, and Helen M. Pratt. Jan. 1976. *In vivo* conversion of 5-oxoproline to glutamate by higher plants. *Plant Physiology* 57(1):85-87.
54. Mazelis, M. Jan. 1976. Softening as a result of enzyme action. p.21-25, IN: Proceedings of the Symposium on Enzymes in the Food Processing Industry, University of California, Cooperative Extension Service, Davis, California.
55. Mazelis, Mendel, B.J. Mifflin and Helen M. Pratt. April 1976. A chloroplast-localized diaminopimelate decarboxylase in higher plants. *FEBS Letters* 64(1):197-200.

56. Mazelis, M. 1976. Diaminopimelate decarboxylase in higher plants. p.623, IN: 10th International Congress of Biochemists.
57. Mazelis, Mendel, and Richard K. Creveling. May 1976. Diaminopimelate decarboxylase from wheat germ. *Plant Physiology* 57(5, suppl.):46 (Abstract #242).
58. Oputa, C. Otunuya, and Mendel Mazelis. June 1977. Simulated hypogravity and proline incorporation into salt-extractable acromolecules from cell walls. *Phytochemistry* 16(6):673-675.
59. Mazelis, Mendel, F.R. Whatley and Janice Whatley. Dec. 1977. The enzymology of lysine biosynthesis in higher plants. The occurrence, characterization and some regulatory properties of dihydrodipicolinate synthase. *FEBS Letters* 84(2):236-240.
60. Mazelis, Mendel, and Richard Creveling. Jan. 1978. The enzymology of lysine biosynthesis in higher plants. Diaminopimelate decarboxylase from wheat germ. *Journal of Food Biochemistry* 2(1):29-37.
61. Mazelis, Mendel, and Richard K. Creveling. Jan. 1978. 5-Oxoprolinase (L-pyroglutamate hydrolase) in higher plants; Partial purification and characterization of the wheat germ enzyme. *Plant Physiology* 62(5):798-801.
62. Mazelis, Mendel. April 1978. Comparative properties of several dihydrodipicolinate synthases. *Plant Physiology* 61(4, suppl.):22 (Abstract #120).
63. Tsai, Ming-Daw, Janet Weaver, Heinz G. Floss, Eric E. Conn, Richard K. Creveling and Mendel Mazelis. Oct. 1978. Stereochemistry of the beta-cyanoalanine synthetase and S-alkylcysteine lyase reactions. *Archives of Biochemistry and Biophysics* 190(2):553-559.
64. Mazelis, Mendel. 1979. ATP-dependent hydrolysis of 5-oxoproline to glutamate in higher plants. p.407-417, IN: E.J. Hewitt and C.V. Cutting (eds.), Nitrogen Assimilation of Plants, Academic Press, New York.
65. Tobkin, Henry E., Jr., and Mendel Mazelis. March 1979. Alliin lyase: Preparation and characterization of the homogeneous enzyme from onion bulbs. *Archives of Biochemistry and Biophysics* 193(1):150-157.
