List of Publications

University of Wisconsin

**Agricultural and Mechanical College of Texas**

American Meat Institute Foundation

118. Miyake, Aiko, Ann H. Bokman and B.S. Schweigert. Nov. 1954. 3-
hydroxyanthranilic acid metabolism. VI. Chemical studies on intermediate.

acids from foods by the rat. III. Methionine. Journal of Nutrition 54(3):333-
344.

myoglobin. IV. Changes associated with irradiating meats and meat extracts

grades of animal fats on the performance of chicks. Poultry Science 34(2):411-
414.

in vitamin B_{12} deficiency. Proceedings of the Society for Experimental
Biology and Medicine 88:637-640.

Homogeneity studies with crystalline beef myoglobin. Journal of Biological
Chemistry 214(2):647-655.

irradiation on meat fats. Journal of Agricultural and Food Chemistry 3(11):958-
960.

125. Wong, W.T., and B.S. Schweigert. Feb. 1956. Role of vitamin B_{12} in nucleic acid
metabolism. I. Hemoglobin and liver nucleic acid levels in the rat. Journal of

metabolism. II. Liver coenzyme A levels in the rat. Archives of Biochemistry
and Biophysics 60(1):126-129.

Filament formation by Lactobacillus leichmanii when deoxyribosides replace

129. Downing, Mancourt, and B.S. Schweigert. June 1956. Role of vitamin B_{12} in
nucleic acid metabolism. III. Preparation of C^{14} uniformly labeled pyrimidine

130. Downing, Mancourt, and B.S. Schweigert. June 1956. Role of vitamin B_{12} in
nucleic acid metabolism. IV. Metabolism of C^{14} labeled thymidine by
